

Update : 08/06/2018

## MOTORIZED ROTATION STAGE

### 1 - Application

- Defense embedded actuator
- Outdoor applications
- Compliant MIL-STD-810E standard

### 2 - Description

- DC motor
- Embedded electronic board
- Irreversible gear-screw system
- Electrical connector MIL-D38999
- Waterproof design
- Protection for harsh environment (salt spray, sand, Water)
- High acceleration resistance design
- Temperature range -32°C to +49°C
- Certified to MIL-STD-810-G

*All our products can be **customized** to match your exact requirements*

### 3 – Technical Data

CHARACTERISTIC	SPECIFICATIONS
Course :	± 33°
Positioning accuracy :	< 1°
Load capacity :	4 kg
Rotation speed :	12 RPM
Main supply :	17-35 VDC
Nominal current :	0,5 A
Size (without connector) :	200 x 176 x 62 mm
Mass :	3 kg
Acceleration resistance :	40 g
Temperature range :	-33°C / +49°C
Protection rate :	IP65 9k

### 4- Dimensions (mm)
